**WESTAR ENERGY REMINDS CUSTOMERS TO BE ON THE ALERT
FOR FRAUDULENT TELEPHONE CALLS**

WICHITA, Kan., Feb. 1, 2013 — Westar Energy reminds customers to be on the alert for fraudulent callers claiming to be Westar Energy employees. Several customers have contacted Westar Energy’s Customer Relations Center after receiving suspicious calls.

In most cases, the caller claims to be a Westar Energy customer service representative and tries to get the customer to provide credit card information or other personal information, telling the customer a check bounced or he or she has a past-due bill.

Legitimate calls from Westar Energy should show 800-383-1183 and say Westar Energy on caller ID. The agent should always be able to provide his or her name and extension if requested. For past-due accounts, calls from Westar Energy requesting payment are never made the same day as the disconnection. The customer should always have the opportunity to call Westar Energy back and verify the information.

If a customer receives a call that is suspicious, he or she should hang up and call the Westar Energy Customer Relations Center at 1-800-383-1183. Customers can also report suspicious activity to their local law enforcement agency.

customers. Westar has 7,100 MW of electric generation capacity fueled by coal, uranium, natural gas, wind and landfill gas. We are also a leader in electric transmission in Kansas. Our innovative customer service programs include mobile-enabled customer care, a smart meter pilot project and paving the way for electric vehicle adoption. Our employees live, volunteer and work in the communities we serve.
