## Westar Energy certifies building operators.

Thirteen building operators receive Level I certification.

TOPEKA, Kan., December 5, 2013 — After a rigorous round of training sessions, homework and exams, twenty area building operators and facility managers have earned their Building Operator Certification (BOC) Level I designation from Westar Energy. This nationally recognized certification in building operation efficiency educates employees responsible for maintenance and operations of large buildings and their complex heating, mechanical and electrical systems. BOC provides training to keep building operators current on the newest energy technology available and share best practices from experts in the field.

“These employees and their employers are committed to reducing energy use, which benefits their organization and has a positive impact on the environment,” said Terry Wilson, executive director, customer & community relations. “Previous participants have reduced their facility costs by thousands of dollars, so the payback to employers can be immediate.”

Using the tools and methods taught in class, participants compiled records on their organization's electrical systems, HVAC operations, lighting levels and controls and annual profiles of energy consumption. Upon the program's completion, BOC graduates retain these in-depth reference manuals and gain access to BOC's nationwide network of participants, experts and resources to leverage for troubleshooting, best practices and advice.

The following building operators have successfully completed the BOC Level I course series that began in April, 2013 and ended in October, 2013:

- Donald Clausen, Del Monte Pet Products
- Robert Coats, Brewster Place
- Jason Golder, Capitol Federal
- Shawn Guffy, Affiliated Foods Midwest
- Jake Linck, Community HealthCare System
- Dan Padilla, Del Monte Pet Products
- Ben Schlegel, Community HealthCare System
- Kolten Schulze, Rehrig Pacific Company
- Ron Shanks, U.S.D. 491, Eudora
- Steve Sims, Blue Cross Blue Shield of Kansas
- David Sparkes, Douglas County Sheriff Office
- Russ Stewart, Community HealthCare System
- Kelsey Williams, Westar Energy, Inc.

## Westar Energy certifies building operators

Westar Energy has entered into a joint licensing agreement with the Midwest Energy Efficiency Alliance (MEEA), Kansas City Power and Light, Midwest Energy, Inc., Kansas Municipal Utilities, Kansas Electric Cooperatives, Inc. and the Kansas Energy Office to make the BOC program available to all Kansas building operators.

The cost for the course series is \$1,150. Upon BOC certification, Westar Energy, customers are eligible to receive a \$575 reimbursement toward the \$1,150 tuition. For information about upcoming courses, visit [www.westarenergy.com/boc](http://www.westarenergy.com/boc) or call Karen Smith at 316.299.7450 for more information.
